One Doctor Who Was Cured.
Mr. Wilford Adams is his name, and he writes about it. "Some time ago I was confined to my bed by a severe attack of rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and resumed work as conductor on the Lexington, Ky., Street Railway. It gave me more relief than any medicine I had ever used, and it will do all you claim in cases of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. FOR A THIRD TERM.
Patterson Announces Candidacy to Succeed Himself.
Nashville, Tenn.—Governor Malcolm R. Patterson has announced his candidacy to succeed himself, subject to the democratic primary of June 4. In view of recent political events in Tennessee and the governor's pardon of Colonel Duncan B. Cooper, convicted of the Carmack murder and sentenced to twenty years in prison, the statement of Governor Patterson is particularly interesting. Governor Patterson represents the demagogic element of the democracy of Tennessee.

Free Dyspepsia Sample
Sufferers from indigestion are waking up to the fact that peppermint lozenges, charcoal and "dyspepsia cures" are only makeshifts in the cure of so troublesome a complaint as chronic indigestion. What is required is a remedy that will not only relieve but remove the cause of the trouble. The fact is, there is something more to the cure of indigestion than sweetening the breath, and yet a remedy that only contains digestive ingredients will not cure it. There is a scientific basis of indigestion, and the fact is, there is a scientific basis of indigestion, and the fact is, there is a scientific basis of indigestion.

STREET CAR STRIKE

Philadelphia Service Having Trouble With Employees.

CARS WERE SET ON FIRE

In Kensington, Philadelphia's Great Mill District, the Most Serious Disturbances Occurred—Cars Attacked by Boys and Strike Sympathizers.

Philadelphia.—Coming when least expected, a strike was declared against the Philadelphia Rapid Transit Company, by the Amalgamated Association of Street and Electric Railway Employees. Two cars were burned, a score more attacked, and scores forced to abandon them, and numerous arrests were made. Except in the central part of the city, where the cars were heavily protected, street car service was almost at a standstill.

Cars Wrecked and Fired.
In Kensington, Philadelphia's great mill district, the most serious disturbances occurred. Here two cars attacked by boys and strike sympathizers, after the drivers were compelled to flee, were wrecked and set on fire. The cars were damaged beyond repair before the firemen arrived.

Great crowds collected in this vicinity, and for a time it was feared a riot would follow; when, however, the firemen were ordered to turn their hose on the crowd, the mob quickly scattered.

Along Kensington avenue, lumber and other obstructions were piled on the tracks. The usual big Saturday night crowd, out for fun, was in evidence, but the street was heavily patrolled, and no further general disorder occurred.

Struck by Missiles.
West Philadelphia, the southern section of the city, Germantown and other parts of Philadelphia also reported attacks on cars, forcing trolley men and passengers to seek safety. Many persons were struck by missiles, but no one was seriously hurt.

Second Strike in Year.
The strike, the second within a year, came so suddenly that thousands of persons were caught away from their homes. The leaders of the union claim that the trouble was started by the company. The corporate leaders claim that the strike was a prearranged affair on the part of the union.

Second Death From Riot.
Philadelphia.—An unidentified man was killed as the result of a riot in the street car strike at Fourth and Market streets. Caught in a crowd attacking two cars he was forced off the sidewalk and pushed against a heavy wagon and under the wheels. This is the second death from the riot.

Montreal.—The worst Canadian fire disaster of many years occurred at Cornwall, Ont., when the Rosemount hotel was destroyed. Ten dead have been taken from the ruins, men, women and children, and three more are missing.

BLOW TO THE TRUST

United States Grand Jury Returns Indictments.

HEARING HELD IN SAVANNAH

Indictments Have Been Returned Against Several Large Concerns, Alleging a Conspiracy in Restraint of Business, Trade and Commerce.

Savannah, Ga.—As a result of the investigation which has been carried on by the federal grand jury here for several days into the prices of meats in Savannah and the causes for their increase, an indictment was returned against one of the big packing houses and three men, local managers of three of the packing houses, as individuals. The investigation is brought against Cuddeback & Co., the Schwarzchild & Sulzberger Beef Company, Swift & Co., the Armour Packing Company, and the Nelson Morris Company, as corporations, and Fred M. Hull, Jr., as local manager for the Nelson Morris Company; William D. Cooper, as local manager for Armour, and Emory B. Adams, as local manager for Swift. The Savannah representatives of the two other packing houses named in the indictment are not mentioned.

The date of operations for which the indictment is brought is for the year 1908.

It is alleged that the packing houses named in the indictment brought and slaughtered live stock at various points in the west and north, shipped fresh meats to Savannah, reduced the price of meats and sold them on the market at a loss. The result of the manipulation is alleged to have conspired the South Atlantic Packing and Produce Company of Savannah to sell its product at a loss, and was a conspiracy in restraint of business, trade and commerce. The intent of the larger packing houses is alleged to have been to force the local houses out of the field of competition.

Combination Alleged.
The second count alleges that between June 10 and August 1, 1908, all of the defendants acted in concert to bring about a combination whereby they fixed arbitrary non-competitive and exorbitant prices for meats, thus eliminating the competition which should naturally have existed.

William D. Cooper, one of the defendants, is now in Nashville, Tenn., and Fred M. Hull, Jr., is in Little Rock, Ark. It is expected that service will be perfected immediately on the defendants and bonds made.

ATLANTA'S GRAND OPERA.

Music Festival Surpasses Gate City's Best Efforts.

Atlanta.—The Metropolitan Opera Company, of New York, opened a festival of grand opera this week, which has drawn hundreds of out-of-town visitors to the city.

The great Auditorium is being packed each night by large numbers of those who appreciate the higher class of opera, and probably hundreds who care little for superior music, but lend their presence because the occasion is a big event and the "fad" for the time being.

The first night opening with Loebengrin, Wagner's famous opera, the record-breaking attendance greeted the performance.

Some of the most famous singers of the day are taking part in the performances, notably among them, Mme. Olivia Fremstad, the celebrated soprano; Carl Jarni, the Loebengrin hero, and the golden-voiced Enrico Caruso, the renowned tenor, whose singing, it is said, brings him the smart little sum of \$1,000 a night.

Seldom has such an elaborate program been arranged for grand opera entertainment by Atlanta.

This coupled with the flying ship attractions at the Peacock, the treasure hunt at the city square and May-day attractions never before equalled.

SEARCH FOR TREASURE.

Divers Trying to Locate Sunken Ship and Many Millions.

Glasgow.—Divers from Ceylon are being employed to search in Tiberius bay for the Peacock, the treasure ship which came to disaster during the affair of the Armada. A London syndicate is bringing over these men to begin operations at an early date. They have been accustomed to working without diving dresses, and have been most successful in locating hidden treasure in pearl oysters at considerable depths.

The syndicate believes that the position of the sunken ship has been located by recent salvors, at an estimated value of the treasure on board is equal to about \$12,500,000.
